## CAREER OBJECTIVE

Cybersecurity undergraduate with a CGPA of 7.78, passionate about cybersecurity, ethical hacking, network security, Python, Linux, and Security Operations. Experienced in security monitoring, log analysis, vulnerability assessment, web application security testing, and developing security-focused applications. Familiar with SOC operations, threat detection, incident analysis, networking concepts, and security tools, with strong analytical, logical reasoning, and problem-solving skills.

## EDUCATION

|                                            |                          |
|--------------------------------------------|--------------------------|
| KL University                              | CGPA: 7.78/10            |
| B.Tech in Computer Science and Engineering | 2023 – 2027   Vijayawada |
| DePaul Junior College                      | 67%                      |
| Intermediate (MPC)                         | 2021 – 2023   Berhampur  |
| St. Vincent Convent School                 | 82%                      |

## TECHNICAL SKILLS

Programming Languages: Python, Java, C  
Frontend: HTML, CSS, ReactJS  
Backend: Node.js, Spring Boot  
Databases: DBMS, SQL  
Tools & Platforms: GitHub, Linux, VS Code  
Cybersecurity: SOC Operations, Log Analysis, Threat Detection, Vulnerability Assessment, Web Application Security

## PROJECTS

### SOC Log Analyzer – Security Operations Center Project

- Developed a SOC Log Analyzer to monitor and analyze security logs, detect suspicious activities, and identify potential security threats.
- Implemented automated log parsing and security event analysis using Python, generating structured reports to support incident investigation and threat detection.
- Applied networking and security concepts for practical threat detection and incident analysis.

### Password Security Analyzer

Developed a web-based tool to analyze password strength and provide users with actionable feedback for creating stronger passwords. Implemented password analysis based on password length, character variety, and common password patterns. Designed a responsive user interface using HTML, CSS, and JavaScript.

### Responsive Login & Registration Page

- Developed a responsive login and registration interface using HTML and CSS.
- Implemented user-friendly forms, basic validation, clean UI design, and responsive layouts.

## CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- NPTEL: Data Structures Using Java
- Automation Anywhere Certified: RPA

## LEADERSHIP & ACHIEVEMENTS

- Developed and implemented a SOC Log Analyzer for security log monitoring, suspicious activity detection, and security event analysis.
- Completed hands-on SOC and cybersecurity projects involving log analysis, network security, vulnerability assessment, and web application security testing.
- Practiced threat detection and incident analysis using security logs and networking concepts in a practical lab environment.
- Demonstrated strong problem-solving and analytical skills while troubleshooting security tools, configurations, and project issues.
- Maintained project documentation and used Git/GitHub for version control and project development.
